

# Stallion Information

## February 2018

# Stallion Information 2018

This 2018 Stallion Information is being presented to you as an aid in choosing a stallion. When choosing a stallion it is not just important to use the best-quality stallions but it is even more important to make the correct combinations. The KFPS strives to make as many breeding data on its stallions available as possible.

## Which stallions?

In the 2018 edition of Stallion Information all active stallions are displayed. For exterior, by viewing the results, the young stallion's offspring information is still not included. These breeding values are based on breeding pedigree data and the exterior assessment (linear score) of the stallion itself. For stallions that the offspring have gone through, the results are almost entirely based on test data (linear score) of offspring. The reliability of the results of young stallions is still low. This means that the results can change more (as descendants are inspected) than the older stallions with a high reliability. By the lower reliability of the results of younger stallions, these cautious estimates and are closer to the breed average (100).

## Which characteristics?

The following characteristics of the stallions are included:

1. Breeding value linear exterior characteristics
2. Breeding values for sport aptitude

## Breeding values exterior and sport aptitude

Given the complexity of the breeding-value estimation for the exterior characteristics and sport aptitude an explanation of the origins and the interpretation of the numbers is necessary. In this explanation we also touch upon how the numbers can be used for choosing a stallion.

## The linear characteristics

The breeding values for the exterior characteristics are based on the linear scores, which since 1993 are documented for every studbook registration of the horses. Of the 25 exterior characteristics a score is given between 5 and 45, with an average of 25. For the linear characteristics it specifically concerns an observation and not a rating. The characteristics have been chosen such that the linear report provides a picture of the horse's exterior that is as complete as possible. The linear characteristics can be divided in two categories:

**The optimal characteristics:** the characteristics for which the average score (25) or breeding value (100) is most desired.

Examples of such characteristics are: shape of the back, conformation of the front legs, and shape of the hind legs.

**Maximum characteristics:** the characteristics for which goes the higher the better (example: expression of the face, expression of movement, etc.) or characteristics of which the optimum lies clearly above average, such as slope of the shoulder and shape of

the croup. The difference has been visualized by depicting the breeding values for the maximum characteristics with dark-blue bars (favorable) and red bars (unfavorable), and the breeding values for the optimum characteristics with light-blue bars. In addition to the 25 linear characteristics the overview consists of a measured characteristic: the height at the withers.

## The rated characteristics

In addition to the 25 linear exterior characteristics also five rated characteristics are scored: breed type, build, legs, walk, and trot. For the linear characteristics it concerns a descriptive value, for the rated characteristics it concerns a rating. When evaluating the rated exterior characteristics the related linear characteristics play an important role. In addition non-linear scored segments can play a role. The characteristic trot, e.g., consists in addition to the linear characteristics length of the trot, strength of the trot, balance, and suppleness also of, e.g., rhythm/regularity of the trot. The rated characteristics are scored from 4 through 9. Since 2016, the marks for the rating characteristics scored in upgrading procedures are included in the breeding value assessment. Since 2017 the bottom bar marks scored in the sections Starmares are also included in the breeding value assessment.

## Sport aptitude

The breeding values are based on the ABFP results as these have been gathered by KFPS over the years, also as part of the testing on offspring. The reasons that this particular data is used for the breeding-value estimation instead of, e.g. sport results are the following: **1.** ABFP information is available much earlier than sport data. **2.** ABFP data is for a larger part hereditary (higher h2) than sport data. That is thanks to the uniform training, presentation, and evaluation. **3.** Number of offspring per stallion in sport is in general (still) too low. **4.** The ABFP data gives information on segments (basic gaits, suitability as show-driving horses, riding horses, and driving horses).

Since the breeding value assessment of December 2015 all ABFP data as well as the IBOP data are included in the breeding value assessment.

## The estimation model

The breeding values, estimated by CRV / Dutch Cattle Syndicate, are estimated with a so-called estimation model. This estimation model indicates for which influences the differences between (in this case) stallions are corrected. The exterior scores are

corrected for the following effects: breeding value of the dam of the offspring, age at the time of inspection, gender, linear evaluator, and inspection. This correction takes place to get an insight as pure as possible in to what degree the differences in offspring groups are caused by difference in genetic aptitude of the stallions. With these correction factors it basically does not matter in what area or on what mares a certain stallion is used. The kind of evaluation model that is being used is the so-called animal model. With an animal model in addition to data on offspring also information of family members is included. The contribution of this information declines as more information on the offspring becomes available.

## Interpretation of the breeding values

The breeding values are indicated in an average of 100 with a spread of 4 points. This basis was determined in 2001. The average breeding values of all horses born in 2001 is for each characteristic set at 100 and the spread (standard deviation) of these breeding values is set at 4. Breeding values with a deviation compared to 100 of one time the spread (between 96 and 104) have to be considered as average. Over two thirds of the breeding values are in this margin. It goes without saying that the larger the deviation is compared to 100, the larger the expected effect is. A stallion with a breeding value of 109 or higher for, e.g., strength of movement, belongs to the 2% best stallions of the population. For a breeding value higher than 112 this is 0.1%.

## Reliability of the Breeding values

The breeding values are indicated per characteristic with 'bars.' As mentioned the maximum characteristics are indicated by dark-blue bars (favorable) and red bars (unfavorable) and the optimal characteristics by light-blue bars. For the maximum characteristics goes that results to the left are unfavorable (red) and results to the right are favorable (dark-blue). For the optimal characteristics goes that (extreme) results to both the left and right are unfavorable; 100 is optimal here. Summarized: Bars to the left are always unfavorable and bars to the right are favorable, except for the light blue bars.

## Reliability

The degree to which the breeding value provides a precise image of the actual genetic aptitude of a stallion is expressed in the reliability (betrouwbaarheid / btbh.). The reliability is especially influenced by the number of inspected offspring. With a low reliability the breeding values can still change considerably when more offspring are inspected. The reliability can be interpreted as followed:

Reliability	Interpretation
Less than 70%	moderately reliable
70-80%	reasonably reliable
80-90%	reliable
Over 90%	very reliable

## Use of the breeding values

The exterior breeding values are an excellent aid for making a correct mare-stallion combination. This can be done by looking at the mare's linear score form for the items that can be considered for correction. If the characteristic that needs to be corrected is a maximum characteristic then a stallion needs to be selected that has a (clearly) positive hereditary effect on this characteristic (bar to the right). If it concerns an optimal characteristic then the best choice is a stallion with an average breeding value or a slight deviation in the opposite direction, depending on the score of the mare. Use of the breeding values for sport aptitude. As you can see breeding values have been estimated for the basic gaits in the exterior bar and in the sport aptitude bar. The former is based on the evaluation of the basic gaits in the inspection ring (in hand), while the latter is based on the evaluation of the basic gaits in use (ABFP test). For most of the stallions these breeding values largely match. There are, however, stallions that have a breeding value for the basic gaits in the sport index that is quite a bit lower than the breeding value for the basic gaits in the exterior bar. Given the fact that the breeding goal indicates that we want to breed horses that have good gaits in especially their use the breeding values for sport aptitude should weight more heavily in your evaluation of the stallions.

## Kinship percentage

All Studbook stallions are given a rating for kinship percentage. This figure reflects a stallion's kinship to the population as a whole. The lower this percentage, the more such a stallion can contribute to out-crossing. The average percentage of Studbook stallions lies around 17.5%. The kinship percentage is calculated by computing the inbreeding coefficient of fictitious foals from the combinations of all individual stallions with the mare population. The mare population is in fact defined as all fillies that were born over the past three years, 8000 individuals in total. For the calculation of inbreeding all known generations are considered (instead of only the first 5 generations). The kinship percentage is influenced by the degree in which bloodlines correspond with or deviate from the population. The kinship percentage will increase in proportion to the degree in which a particular stallion is used. The kinship percentage is one of the aspects which are considered for the selection of young stallions to restrict the increase of inbreeding. In the calculations of kinship percentages in this issue a correction for missing pedigree information has been applied for the first time. Therefore the kinship percentage of stallions with a 'short dam line' has been revised upwards.

## Stallion information online

On the KFPS website ([www.kfps.nl](http://www.kfps.nl)) you also find the digital version of the Stallion Information. You can find it under the heading 'Breeding information' or 'My Horse' and here you will find even more detailed information about the stallions. In addition, you can make stallion selections by indicating selection criteria. In the digital version of the Stallion Information all Stallions are included.

## List of KFPS Studbook Stallions 2018

Below are the studbook stallions with a breeding permit stationed in the Netherlands for 2018.

Name stallion	Station	
Ulke 338	Dekstation Gaasterland, Oudemirdum	S.W.S. Tel.: +31 (0)514-572111/604111
Abe 346	Tj. Bosma, Kollumerzwaag	S.W.S. Tel.: +31 (0)511-444820
Fêde 350	P. Kruidenier, Rhooon	Nat. Dek. Tel.: +31 (0)180-620051
Jasper 366	Ancilla Bruggink, Hoornsterzwaag	S.W.S. Tel.: +31 (0)6-51923992
Ielke 382	O.L. en M.C. v.d Weide, Ansen	S.W.S. Tel.: +31 (0)522-470405 /+31 (0)6-53751411
Rik 396	Opfok en Handelstal Tj. Bouma, Terkaple	S.W.S. Tel.: +31 (0)566-689741
Tsjalke 397	G. Toonen, Maren-Kessel	S.W.S. Tel.: +31 (0)412-479242
Rindert 406	Dekstation de Terpen, Wommels	S.W.S. Tel.: +31 (0)515-332505
Beart 411	Gebr. van Manen, Ede	S.W.S. Tel.: +31 (0)318-513371
Bente 412	M. Schreven, Weert	S.W.S. Tel.: +31 (0)6-20399084
Aan 416	Tj. Bosma, Kollumerzwaag	S.W.S. Tel.: +31 (0)511-444820
Eibert 419	O.L. en M.C. v.d Weide, Ansen	S.W.S. Tel.: +31 (0)522-470405 /+31 (0)6-53751411
Felle 422	O.L. en M.C. v.d Weide, Ansen	S.W.S. Tel.: +31 (0)522-470405 /+31 (0)6-53751411
Haitse 425	Stal de Oergong, Huins	S.W.S. Tel.: +31 (0)6-20005570 /+31 (0)6-51032888
Gjalt 426	Stal Wijde wormer, Kwadijk	S.W.S. Tel.: +31 (0)299-439443
Jorn 430	Hestegaarden, Beek en Donk	S.W.S. Tel.: +31 (0)492-462396
Loadewyk 431	Stal Lytse Vlearen, Tzum	S.W.S. Tel.: +31 (0)6-54323659
Jense 432	Tj. Bosma, Kollumerzwaag	S.W.S. Tel.: +31 (0)511-444820
Maurits 437	Gebr. van Manen, Ede	S.W.S. Tel.: +31 (0)318-513371
Maeije 440	Tj. Bosma, Kollumerzwaag	S.W.S. Tel.: +31 (0)511-444820
Michiel 442	Stal Okkema, Britswert	S.W.S. Tel.: +31 (0)6-53818266
Olgert 445	Stal Wijde wormer, Kwadijk	S.W.S. Tel.: +31 (0)299-439443
Stendert 447	A. Couperus, Oostermeer	S.W.S. Tel.: +31 (0)6-12291174
Pier 448	Handels- en Exportstal Heuker B.V., Zevenhuizen	S.W.S. Tel.: +31 (0)594-632247 /+31 (0)6-51230975
Sake 449	Stal Lytse Vlearen, Tzum	S.W.S. Tel.: +31 (0)6-54323659
Sipke 450	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284

Name stallion	Station	
Reinder 452	Tj. Bosma, Kollumerzwaag	S.W.S. Tel.: +31 (0)511-444820
Tsjalle 454	Stal de Mersken, Siegerswoude	S.W.S. Tel.: +31 (0)6-50247820
Take 455	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Tymon 456	Ancilla Bruggink, Hoornsterzwaag	S.W.S. Tel.: +31 (0)6-51923992
Uldrik 457	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Tonjes 459	Stoeterij Bosksicht, Rijs	S.W.S. Tel.: +31 (0)6-20409241
Wimer 461	Dekstation Gaasterland, Oudemirdum	S.W.S. Tel.: +31 (0)514-572111/604111
Wytse 462	Fam. J.A.M. Kruis, Heeg	S.W.S. Tel.: +31 (0)6-46234423
Wylster 463	Henswoude, Oldeboorn	S.W.S. Tel./fax.: +31 (0)566-631364 /+31 (0)6-51003902
Thorben 466	Stal de Mersken, Siegerswoude	S.W.S. Tel.: +31 (0)6-50247820
Wolfert 467	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Alke 468	Dekstation Gaasterland, Oudemirdum	S.W.S. Tel.: +31 (0)514-572111/604111
Alwin 469	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Bikkel 470	Spliethof Paarden, Bladel	S.W.S. Tel.: +31 (0)6-46762880
Aarnold 471	Gebr. van Manen, Ede	S.W.S. Tel.: +31 (0)318-513371
Bartele 472	Handels- en Exportstal Heuker B.V., Zevenhuizen	S.W.S. Tel.: +31 (0)594-632247 /+31 (0)6-51230975
Djoerd 473	Handels- en Exportstal Heuker B.V., Zevenhuizen	S.W.S. Tel.: +31 (0)594-632247 /+31 (0)6-51230975
Epke 474	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Bene 476	Stal Chardon, Jorwert	S.W.S. Tel.: +31 (0)6-42314865
Fonger 478	Dekstation Gaasterland, Oudemirdum	S.W.S. Tel.: +31 (0)514-572111/604111
Gerben 479	Fam. J.A.M. Kruis, Heeg	S.W.S. Tel.: +31 (0)6-46234423
Hette 481	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284

Eise 489	Stal Chardon, Jorwert	S.W.S. Tel.: +31 (0)6-42314865
Meinte 490	Gebr. van Manen, Ede	S.W.S. Tel.: +31 (0)318-513371
Markus 491	Dekstation Gaasterland, Oudemirdum	S.W.S. Tel.: +31 (0)514-572111/604111
Nane 492	Henswoude, Oldeboorn	S.W.S. Tel./fax.: +31 (0)566-631364 /+31 (0)6-51003902
Omer 493	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Elias 494	Stal Baron-Spahn, Niebert	S.W.S. Tel.: +31 (0)6-52478235
Jurre 495	Stal Chardon, Jorwert	S.W.S. Tel.: +31 (0)6-42314865
Menne 496	Gebr. van Manen, Ede	S.W.S. Tel.: +31 (0)318-513371
Mees 497	Henswoude, Oldeboorn	S.W.S. Tel./fax.: +31 (0)566-631364 /+31 (0)6-51003902
Rommert 498	Stal de Mersken, Siegerswoude	S.W.S. Tel.: +31 (0)6-50247820
Siert 499	Stal de Mersken, Siegerswoude	S.W.S. Tel.: +31 (0)6-50247820
Tjebbe 500	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Tiede 501	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Ulbrân 502	Stal de Mersken, Siegerswoude	S.W.S. Tel.: +31 (0)6-50247820
Tymen 503	Stal de Mersken, Siegerswoude	S.W.S. Tel.: +31 (0)6-50247820

## EU Stations in the Netherlands

\* The list is final until the end of March. When there become new stallion stations, then this list will be updated on [www.kfps.nl](http://www.kfps.nl)

\* It is possible that certain stallions have frozen semen according to the EU rules. Notify always at the stations for the possibilities.

EU certified stations		
Gebr. van Manen	Zuiderkade 41, 6718 PG Ede	0318-513371
Henswoude	Prikwei 15, 8495 NG Oldeboorn	0566-631364
R.U. Utrecht	Yalelaan 7, 3584 CL Utrecht	030-2531264
De Nieuwe Heuvel	Veenstraat 1, 6741 EC Lunteren	0318-483284
Stal Wijde wormer	Kwadijk 27, 1471 CB Kwadijk	0299-439443
G. Toonen	Marenseweg 1, 5398 JD Maren Kessel	0412-479242

## List of KFPS Studbook Stallions 2018 Foreign Country

### U.S.A. / CANADA

Name stallion	Station
Maiko 373	Sable Ranch LLC, Gomer GA
Monte 378	Friesian Focus, La Jolla
Sibald 380	F. Leyendekker, Visalia U.S.A.
Sape 381	Caroly Schian and William Gish, Baldwin City
Ulbert 390	Iron Spring Farm, Coatesville
Teade 392	Iron Spring Farm, Coatesville
Brend 413	Iron Spring Farm, Coatesville
Andries 415	Maddi's Friesian Ranch, Gardnerville, NV
Doaitzen 420	Maddi's Friesian Ranch, Gardnerville, NV
Fridse 423	Friesian Connection Stallion Station Inc
Jisse 433	Frank Leyendekker, Visalia
Jesse 435	Annette Coester, West Jordan
Meinse 439	Iron Spring Farm, Coatesville
Norbert 444	Pam & Mat Gish, Signature Friesians, Baldwin City
Tjalbert 460	Iron Spring Farm, Coatesville
Wybren 464	Friesian Connection Stallion Station Inc
Date 477	Friesian Connection Stallion Station Inc
Hessel 480	Friesian Connection Stallion Station Inc
Tjaarda 483	Friesian Connection Stallion Station Inc

### GERMANY

Name stallion	Station
Maurus 441	F. Tietjen, Klein Meckelsen S.W.S.

### FRANCE

Name stallion	Station
Olrik 383	Frisonline, Saint Mihiel S.W.S.

### SWEDEN

Name stallion	Station
Wobke 403	Lotta Johansson, Harbo

### SOUTH-AFRICA

Name stallion	Station
Fetse 349	Quantum Stud, Brentwood Park
Wierd 409	M. Botes, Zwavelpoort
Dries 421	Mrs. Celeste Steyn, Douglas
Mewes 438	Aveleda Friesperd Stoet
Tjalf 443	M. Botes, Zwavelpoort
Anders 451	N.C.J. Peinaar, Potchefstroom

### HUNGARY

Name stallion	Station
Sjouke 453	Monika Nikl, Kisdem

# Tjebbe 500

**Lineage:** Bartele 472 x Star Dries 421 x Crown Tsjerk 328 x Model Pref\*11 Prest Oepke 266  
**Date of birth:** 28 March 2014 **Height:** 1,63 m  
**Pedigree:** 2 **Kinship:** 18,2% (above average)

## Exterior:

**Breeding type:** Tjebbe 500 is a youthful stallion with satisfactory breeding type. His head is small and shows satisfactory expressiveness. The vertical neck is well-shaped but lacks a bit of length. The stallion has satisfactory feathers and coat colour is jet black.

**Conformation:** Tjebbe 500 has a satisfactory, long-lined build but the neck slightly lacks length. Length of the poll is satisfactory. The back is slightly sunken but with a well-developed loin section. The withers are a little underdeveloped and connection to the back is slightly short. Length and slope of shoulder conformation is satisfactory. The croup has a light slope with satisfactory length. Tjebbe 500's build tends to be a bit downhill.

**Legwork:** The legwork shows satisfactory quality. Foreleg conformation is correct. The hind legs are a bit narrow with slightly steep pasterns. The feet are a bit small.

## DNA-tests:

**Hydrocephaly:** non-carrier status

**Dwarfism:** non-carrier status

**Chestnut factor:** non-carrier status

## Estimated breeding value exterior:

**Veterinary:** No comments.

## Performance Test:

**Training report:** Tjebbe 500 has developed well in the course of the test. He shows use of the body and suppleness with more than satisfactory shoulder freedom. The riders and drivers were all complimentary about his work ethics, trainability, capacity for transitions, good mentality and strong use of the hind leg that is placed well forward under the body with great flexion in the hock. He gives both riders and drivers a positive feeling.

**Walk:** He has a roomy, sound and powerful walk moving well through the body with satisfactory shoulder freedom.

**Trot:** Tjebbe 500 displays more than satisfactory suppleness in trot and his use of the hind leg is characterised by great flexion in the hock and lots of technique. He demonstrates to have plenty capacity for transitions in trot. In trot Tjebbe 500 presents good self-carriage with more than satisfactory shoulder freedom. He moves with a lot of forward activity.

**Canter:** The canter has developed well in the course of the test. He also shows good trainability in this pace and has learned to make better use of the body. Quality of strides is good in combination with good self-carriage. The hind legs are placed far under the body.

## Riding horse aptitude:

Tjebbe 500 has great aptitude for riding horse. He is very hard-working with good trainability skills and gives his riders a good feeling. Transitions come easy to him and he shows good trainability in canter.

## Driving horse aptitude:

On account of his very good movement technique, Tjebbe 500 is very talented

for the driving discipline. He has an eye-catching, strong use of the hind leg. Transitions come easy to him and he always moves in a good driving horse outline. He has satisfactory show driving horse aptitude. For this discipline he needs to show more self-carriage by moving in a more uphill frame. Again, a positive feature in this discipline is his strong use of the hind leg.

## Test results riding test:

Walk .....	7.0

Suspension .....	7.5
Carriage .....	7.0
Front .....	7.0
Agility .....	7.5
Impulsion .....	7.5
<b>Total .....</b>	<b>82.0</b>

## Findings Performance Test:

During the Performance Test Tjebbe 500 has demonstrated lots of progression in all three disciplines. Positive assets are his capacity for transitions and his

movement technique. In all disciplines he has good trainability and is a joy to ride.

## Final conclusion:

Tjebbe 500 has good lineage. His exterior is good and he has completed a good test. On the basis of these results he has been registered in the Studbook register.

## Dam report:

**General:** Femke van Stal Zadelhoff is a youthful, attractive mare with characteristic breed expression and a satisfactorily rectangular build and expressive head. Neck conformation is vertical and well-shaped with satisfactory length. The top line is strong but the connection of the withers to the back is slightly short. The croup is long and sloping. He has an uphill frame. Stance of the hind leg is correct and radiates satisfactory quality. Development of the feet is good. The walk is roomy and active but we would like to see a bit more forward reach in the foreleg. He has a powerful, ground-covering trot with a hind leg that is placed far under the body with lots of flexion in the hock. In trot Femke shows good self-carriage.

**Dam line:** Tjebbe 500 has a very good pedigree. He comes from a very strong dam line with abundant predicates and many breeding products, the well-known Synaeda line. The dam is a first premium Star mare by Dries 421 Sport. Before that we find a Crown mare by Tsjerk 328 Sport Pref. This Frigga fan Synaeda is out of the well-known Model Preferent Performance mare Pyrrha fan Synaeda by Oepke 266.

## Advice:

Tjebbe 500 is expected to enhance movement technique, mentality and trainability.

# Tiede 501

**Lineage:** Alwin 469 x Star Loadwyk 431 x Star Teunis 332 x Star Pref\*5 Feitse 293  
**Date of birth:** 6 April 2014 **Height:** 1,68 m  
**Pedigree:** 8 **Kinship:** 17,7% (average)

## Exterior:

**Breeding type:** Tiede 501 is an attractive, youthful stallion with correct breeding type. The head has satisfactory expressiveness and the slightly heavy-set neck has a satisfactory, vertical build. Tiede 501 has more than satisfactory feathers and coat colour is black.

**Conformation:** Tiede 501 has very correct conformation. He is a long-lined stallion with a good rectangular model, presenting a strong top line. Body shape is horizontal and his long croup has correct conformation.

**Legwork:** The legwork should have more quality. Stance of the foreleg has a tendency to toeing-in but hind leg conformation is correct.

## DNA-tests:

**Hydrocephaly:** non-carrier status

**Dwarfism:** non-carrier status

**Chestnut factor:** non-carrier status

## Estimated breeding value exterior:

## Veterinary:

Side remark X-ray testing: fetlock joint OCD grade D (near fore).

## Performance Test:

**Training report:** Tiede 501 has shown a lot of progress in the course of the test. Because of his still youthful state he was a bit uncertain at the start. At times he could be a little tense and easily tired but over the weeks he became stronger. Both riders and drivers have qualified his good trainability and work ethics as positive assets. Tiede 501 moves with power and length of stride and demonstrates lots of forward activity.

**Walk:** By nature Tiede 501 has an active walk with satisfactory length of stride and good use of the body. When stress levels are building his walk is vulnerable and can be affected.

**Trot:** The trot is roomy and powerful with good posture and satisfactory suppleness. The hind leg responds well to training and moves with good flexion in the hock but must be placed under the body with slightly more alacrity.

**Canter:** In canter he moves with good uphill strides and more than satisfactory use of the body and good posture.

## Riding horse aptitude:

Because of his good balance and trainability in all three paces, Tiede 501 is found to have lots of riding horse aptitude. He gives his rider a very good feeling and under saddle moves with good self-carriage.

## Driving horse aptitude:

Tiede 501 is very talented for the driven work thanks to his willingness to work, posture and trainability. In driven work he demonstrates good movement technique, is very forward-going and is a joy to work with. On account of his powerful use of the hind leg, his trainability

and forward activity Tiede 501 has more than satisfactory aptitude for show driving work. As a show driving horse he lacks natural uphill outline and front.

## Test results riding test:

Walk .....	7.0
Trot .....	7.5
Canter .....	7.0
Balance/carriage .....	7.0
Agility .....	7.0
Transitions .....	7.0

Use hind leg .....	8.0
Suspension .....	7.5
Carriage .....	7.5
Front .....	7.5
Agility .....	7.5
Impulsion .....	7.5
<b>Total .....</b>	<b>83.5</b>

## Findings Performance Test:

In the course of the test Tiede 501 has shown very good progress in all three disciplines. He combines good trainability with good movement technique, is very forward-going and is a joy to work with. As a show driving horse he lacks natural rising in the front and should develop more front.

## Final conclusion:

Tiede 501 has good lineage and a very good exterior. He has completed a good Performance Test showing much aptitude for riding- and driving horse and more than satisfactory aptitude for show driving work. On the basis of these results he has been registered in the Studbook register.

## Dam report:

**General:** Tiede 501 was born out of the 1st premium Star mare Corrine Z, a mare with very correct conformation standing in a good rectangular model. This mare has satisfactory breed expression with an expressive, albeit slightly long head, long and sloping shoulder conformation and a strong top line. She has a long and correctly positioned croup. The neck shows satisfactory length but would benefit from a more vertical build. She has a horizontal body shape. The legwork should radiate more quality and stance of the foreleg is a bit toeing-in. Hind leg conformation is correct. The walk is roomy with satisfactory activity. The trot displays more than satisfactory power with satisfactory shoulder freedom. The hind leg is placed under the body with satisfactory length and satisfactory alacrity.

**Dam line:** Tiede 501 comes out of the 1st premium Star mare Corrine Z who is a Loadwyk 431 Sport Elite daughter. Before that is a Star mare by Teunis 332 Sport Preferent, then a Star Preferent mare by Feitse 293 Preferent and next we find the well-known Star Preferent mare Berbertsje by Tsjalling 235 Preferent, who is the dam of Sierk 326. This is the distinguished Plantinga line: a predicate-rich pedigree in which movement is well-embedded.

## Advice:

Tiede 501 is expected to enhance model, suppleness, mentality and trainability.

# Ulbrân 502

**Lineage:** Reinder 452 x Star Jakob 302 x Model Pref\*7 Prest Rypke 321 x Model Pref\*4 Lute 304  
**Date of birth:** 7 April 2014 **Height:** 1,69 m  
**Pedigree:** 115 **Kinship:** 17,2% (below average)

## Exterior:

**Breeding type:** Ulbrân 502 is a fine, tall and imposing stallion with a lot of front. We would like to see a slightly more expressive head. The long neck is well-shaped with correct vertical conformation. Length of the poll is satisfactory. Ulbrân 502 has satisfactory feathers and satisfactory black coat colour.

**Conformation:** Ulbrân 502 is a long-lined stallion standing in a good rectangular model. The top line is slightly sunken but the connection of back/loin section shows more than satisfactory development. Shoulder conformation is long with satisfactory slope. He has a long, lightly sloping croup. Body shape is horizontal.

**Legwork:** The legwork radiates quality. Stance of the foreleg is good. The hind legs have sloping pasterns and stance is a bit toeing-out. Ulbrân 502 has well-developed feet.

## Estimated breeding value exterior:

## DNA-tests:

**Hydrocephaly:** non-carrier status  
**Dwarfism:** non-carrier status  
**Chestnut factor:** non-carrier status

## Veterinary:

Side remark X-ray testing: Fetlock joint OCD grade E (Off fore).

## Performance Test:

**Training report:** Ulbrân 502 has developed well in the course of the Performance Test. He stood out on account of his enormous willingness to work and commitment. He moves with much suppleness and much shoulder freedom. When working Ulbrân 502 displays an uphill outline in movement and receives praise for his keenness to work. Both riders and drivers qualify him as a joy to ride. He is very responsive to the aids.

**Walk:** Especially in the beginning his walk appeared very vulnerable due to stress. When relaxed the walk is sound, with satisfactory power and roomy.

**Trot:** In trot Ulbrân 502 moves with good use of the body, suppleness and good balance, demonstrating good self-carriage in an uphill outline. He shows a lot of shoulder freedom and his foreleg is generously placed forward. His hind leg is very responsive to training but he must learn to place the hind leg forward with more alacrity.

**Canter:** Uphill quality of canter strides is more than satisfactory with satisfactory use of the body and more than satisfactory self-carriage. He also shows to have good trainability in this pace.

## Riding horse aptitude:

Ulbrân 502 is very talented for ridden work. He is very responsive to rider aids

and is found to have a very good attitude to work. He moves with good self-carriage in an uphill outline. The canter has satisfactory uphill quality.

## Driving horse aptitude:

Ulbrân 502 is very talented for driven work. He moves with great self-carriage and his capacity for transitions stood out. He has shown to be very responsive to training and demonstrates natural balance and a large moment of suspension. Because of his natural balance Ulbrân 502 has aptitude for show driving work, he moves with more than satisfactory front and good self-carriage. He must continue to develop engagement of the hind legs. The hind leg should be placed under the body with more alacrity.

## Test results riding test:

Walk .....	6.5
Trot .....	7.5
Canter .....	8.0
Balance/carriage .....	7.5
Agility .....	7.5

Impulsion .....	7.5
<b>Total .....</b>	<b>82.5</b>

## Findings Performance Test:

Ulbrân 502 has developed well in the course of the Performance Test. Positive assets are his use of the body, uphill frame in movement and his very good attitude. In all three disciplines he is found to have very good trainability.

## Final conclusion:

Ulbrân 502 is a stallion with more than satisfactory lineage, a good exterior, with more than satisfactory breeding type and very good results in all three disciplines. On the basis of these results he has been registered in the Studbook register.

## Dam report:

**General:** His dam has passed away.

**Dam line:** Ulbrân 502 comes from a predicate-rich pedigree. The dam is a second premium mare by Jacob 302. The granddam is the Model Preferent mare Jeldau fan 'e Wigêri by Rypke 32. This mare is dam to Haitse 425 and Wylster 463. Next is a Model Preferent mare by Lute 304 and before her a Star mare by Teake 273.

## Advice:

Ulbrân 502 is expected to enhance model, attitude, suppleness, and trainability.

# Tymen 503

**Lineage:** Tsjalle 454 x Crown Sport Harmen 424 x Star Pref\*4 Sape 381 x Star Pref\*4 Brandus 345  
**Date of birth:** 9 May 2014 **Height:** 1,64 m  
**Pedigree:** 70 **Kinship:** 18,0% (average)

### Exterior:

**Breeding type:** Tymen 503 radiates breeding type and presence. He has an expressive head. The well-shaped neck has more than satisfactory length and a vertical build. Tymen 503 has more than satisfactory feathers and coat colour is jet black.

**Conformation:** Tymen 503 is a youthful and correctly-built stallion with more than satisfactory long-lined conformation. The stallion has strong connections in the top line. Shoulder conformation is correct and has satisfactory length. The croup is long with correct conformation. His body shape is a little downhill.

**Legwork:** The legwork has satisfactory quality. Stance of the foreleg is slightly toeing-out. Hind leg conformation is correct.

### DNA-tests:

**Hydrocephaly:** non-carrier status  
**Dwarfism:** non-carrier status  
**Chestnut factor:** non-carrier status

### Estimated breeding value exterior:

### Veterinary:

No comments.

### Performance Test:

**Training report:** On arrival Tymen 503 was nicely ridden under saddle and he made good progress during the examination. He moves with good self-carriage and a lot of gusto clearly enjoying the work. Tymen 503 stands out because of his good movement technique and natural balance. Both riders and drivers were positive about his willingness to work and trainability. With the in-harness work Tymen 503 demonstrates a lot of posture and front.

**Walk:** He has a roomy, sound and active walk with more than satisfactory use of the body.

**Trot:** His trot is characterised by balance and scope with good movement technique and a hind leg that comes well through from behind. In driven work Tymen 503 shows good self-carriage. He is easy to train in trot.

**Canter:** The powerful canter has satisfactory uphill quality in which Tymen 503 demonstrates good self-carriage. Carrying capacity of the hind leg is more than satisfactory.

### Riding horse aptitude:

Tymen 503 has more than satisfactory aptitude for dressage. He is very responsive to rider aids and commitment and attitude to work are good. He gives the rider a good feeling.

### Driving horse aptitude:

Tymen 503 is very talented for driven work. He stands out with his good self-carriage, displays a great working attitude and has good trainability in this discipline. Tymen 503 has great talent for

show driving work. He demonstrates a fine posture, moves with front and a long moment of suspension and has good movement technique.

### Test results riding test:

<b>Total .....</b>	<b>86.0</b>

### Findings Performance Test:

In the course of the test Tymen 503 has shown a lot of progress in all three disciplines whereby attitude to work, movement technique and self-carriage were positive assets.

### Final conclusion:

Tymen 503 comes from a good dam line which has produced various approved

stallions. The stallion has a good exterior and has completed a good test. On the basis of these results he has been registered in the Studbook register.

### Dam report:

**General:** Dam Esoca fan Fjildsicht is a very attractive mare with good breed expression. She has an expressive head and a more than satisfactory, vertically-built neck with good length. The mare's conformation is slightly downhill. The top line is strong with good connections. The connection of the withers to the back could be a bit longer. The croup has correct conformation with satisfactory length. The legwork radiates a lot of quality but hind legs are a bit small-angled in the hocks. The active walk shows satisfactory power and ground-coverage. In trot Esoca fan Fjildsicht moves with good balance and good self-carriage with roomy and powerful strides.

**Dam line:** Tymen 503 comes from a line that breeds well, the well-known Fjildsicht line. Dam Esoca fan Fjildsicht (by Harmen 424) is Crown Sport. Granddam Hester fan Fjildsicht Star Pref (by Sape 381 Sport) is the dam of Thorben 466. Up the line we find Star Preferent mares by Brandus 345 Sport Pref and Jurjen 303. Next is the well-known Star Preferent mare Lysebet by Bjinse 241, who is the dam of Feitse 293. Further up we find the Model Preferent mare Ankje by Noldus 198.

### Advice:

Thymen 503 is expected to enhance model, attitude, balance and technique.

**Report Progeny Test**  
December 2017

# Wybren 464

**Date of birth:** 26 June 2007  
**Breeder:** L. Markey & Family, Wausau (VS)  
**Owner:** G. Young, Mona (VS)  
**Lineage:** Feike 395 x Star Pref\*4 Wicher 334 x  
 Star Pref\*8 Jakob 302 x Star Pref\*4 Jurjen 303 (line 187)  
**Kinship:** 17,3%

**General:**

Wybren 464 was approved in the spring of 2011 at the age of four on the basis of his good-quality lineage, his more than satisfactory exterior and his more than satisfactory results in the Central Examination. From his first stud season 14 foals were registered with 70% out of (minimum) Star mares. Wybren 464 completed the Progeny Test in 2017 on the basis of three year collections of 3-, 4- and 5-year-old offspring. The majority of offspring haven been inspected, tested and assessed in North America.

**Exterior:**

Uniformity of the group of Wybren 464 offspring is satisfactory. They are well-developed, have satisfactory breed expression and correct conformation. They would benefit from being a little more long-lined and quite a few are a bit high in the croup. The walk is found to be the weakest part of passed-on characteristics. The trot however, is characterised by more than satisfactory activity of the hind leg.

Further details regarding exterior are described under breeding values exterior.

**Training report and character:**

**Walk:** In walk the horses often struggle with rhythm. The walk should be more ground-covering and the horses should walk more through the body.

**Trot:** In trot the horses display more than satisfactory movement technique but they often still lack power and impulsion.

**Canter:** For the Wybren 464 offspring the canter is clearly their best gait. They are adepts in canter with more than satisfactory quality of strides and carrying capacity.

**Riding horse aptitude:**

Because the horses still lack power and capacity they often struggled in the test, which also had a negative effect on their transitions. Suppleness in these horses is moderate but posture is satisfactory.

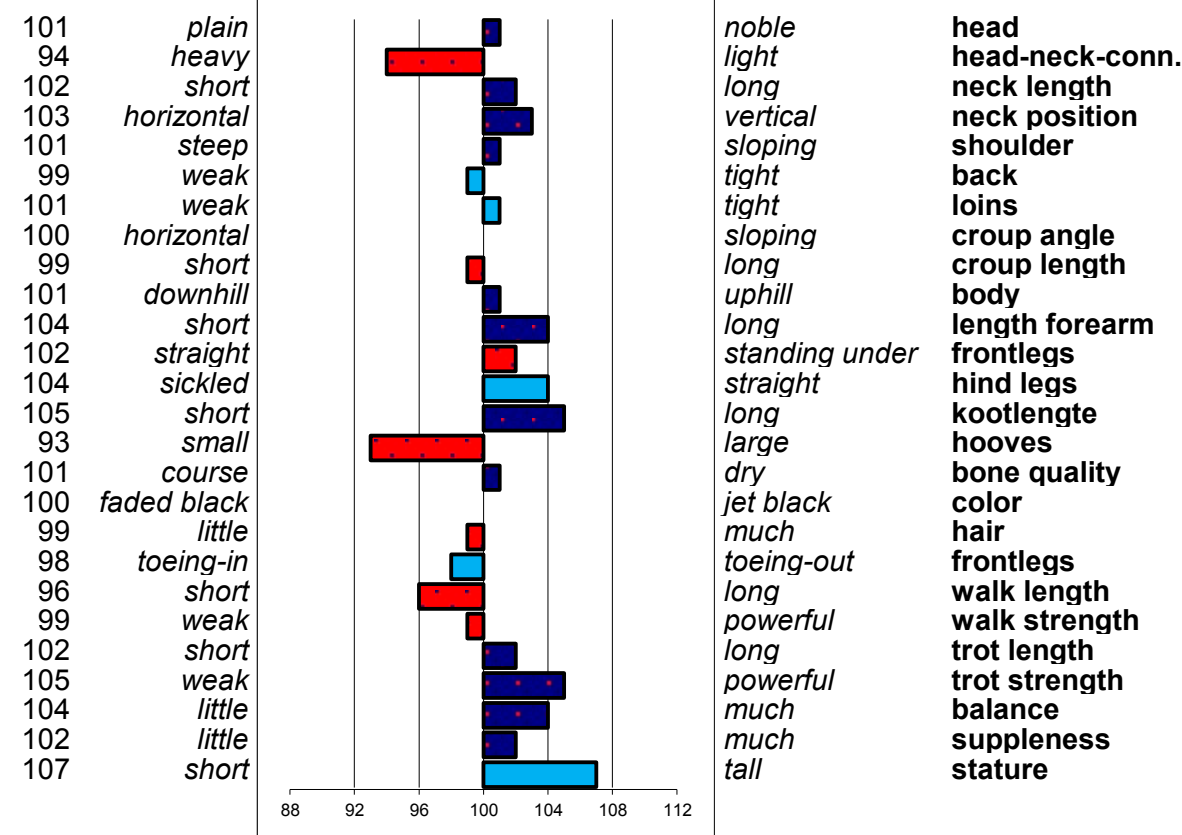

**Show driving aptitude:**

The horses demonstrate satisfactory to more than satisfactory posture in driven work. They miss however the power needed to achieve self-carriage.

**Conclusion:**

Wybren 464 has an average breeding value for exterior as well as sport aptitude. On the basis of his overall progenitive image Wybren 464's breeding license will be sustained.

# Alke 468

**Date of birth:** 1 March 2008  
**Breeder:** M.J. Vrieze, Neede  
**Owner:** H. Eppinga, Oudemirdum and P. Kruidenier, Rhoon  
**Lineage:** Fabe 348 x Star Pref\*8 Jakob 302 x Star Pref\*5  
 Herke 256 x Star Pref\*6 Fokke 217 (line 129)  
**Kinship:** 15,9%

**General:**

Alke 468 was approved in the autumn of 2011 at the age of three on the basis of the very high quality of his lineage, his low kinship, his more than satisfactory exterior and his more than satisfactory results in the Central Examination. From his first stud season 80 foals were registered with 91% out of (minimum) Star mares. Alke 468 completed the Progeny Test in 2017 on the basis of two year collections of 3- and 4-year-old offspring.

**Exterior:**

The Alke 468 offspring are a uniform group of solidly-built horses that in some cases should radiate a more youthful expression. In spite of having generous feathers, many are somewhat lacking in breed expression because of horizontal neck conformation. Conformation is correct but overall, the legwork would benefit from more quality. The walk is satisfactory while the trot is characterised by active use of the hind leg. Noticeable fact is that the

Star percentage in stallions is a fair bit higher than in mares. Further details regarding exterior are described under breeding values exterior.

**Training report and character:**

The Alke 468 offspring are very pleasing and relaxed horses with good stable manners. In the work they are fairly sensitive horses but they are not easily distracted. They are easy to train and have good work ethics.

**Walk:** As regards regularity the walk is a vulnerable gait for many of the offspring. The horses should develop a more ground-covering walk with more shoulder freedom.

**Trot:** In trot the offspring demonstrate good use of the hind leg. In working trot the foreleg should develop more forward reach.

**Canter:** Quality of strides in canter is satisfactory but they often struggle with balance and should move in a more uphill outline.

**Riding horse aptitude:**

The horses are noted for their activity in the hind leg. They should show slightly more suppleness in all three basic gaits.

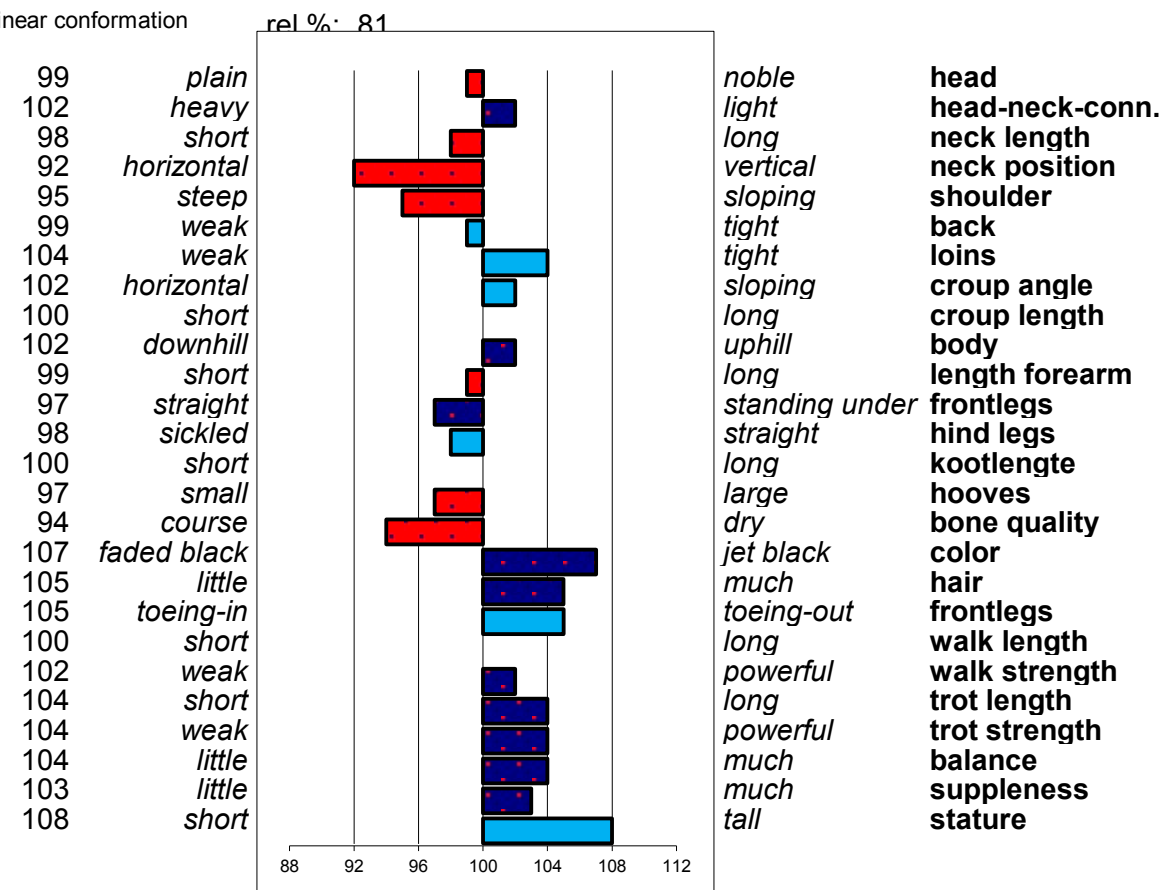

**Show driving aptitude:**

In driven work activity and carrying capacity of the hind leg is more than satisfactory. The horses generally have more than satisfactory posture, but they would benefit from slightly more suppleness. The foreleg is placed forward with more than satisfactory activity and ground-coverage. The horses clearly demonstrate their eagerness and above average aptitude for show driving.

**Conclusion:**

Alke 468 has an average breeding value for exterior as well as sport aptitude. On the basis of his overall progenitive image Alke 468's breeding license will be sustained.

# Bikkel 470

**Date of birth:** 17 April 2008  
**Breeder:** H. Bakker, Haskerhorne  
**Owner:** E.A. Constant, Kwadijk and F.J. Monod de Froideville, Wervershoof  
**Lineage:** Beart 411 x Star Pref Prest\*4 Tsjerk 328 x Star Pref\*6 Thomas 327 x Star Pref\*4 Tjimme 275 (line 9)  
**Kinship:** 18,7%

**General:**

Bikkel 470 was approved in the spring of 2012 at the age of three on the basis of his very high-quality lineage, his low kinship, his more than satisfactory exterior and his more than satisfactory results in the Central Examination. From his first stud season 80 foals were registered with 91% out of (minimum) Star mares. Bikkel 470 completed the Progeny Test in 2017 on the basis of two year collections of 3- and 4-year-old offspring.

**Exterior:**

Uniformity of the group of Bikkel 470 offspring is satisfactory. They are more than satisfactorily developed horses with characteristic breed expression. Some are a little short-lined but they have correct conformation. The horses have correct legwork. Considering that Bikkel is a Beart 411 son the walk of his offspring is often found to be wanting. The in-hand trot is more than satisfactory. Further details regarding exterior are described under breeding values exterior.

**Training report and character:**

The Bikkel 470 offspring are pleasing horses with good stable manners. They have a tendency to tense up when working and are easily distracted. They are also not overly sensitive horses which means they are not always easy to train.

**Walk:** The tension seen in many of the Bikkel 470 offspring is one of the reasons they often struggle with tact. The walk also lacks scope and the hind leg often lacks activity.

**Trot:** The trot has satisfactory scope of movement. The hind leg should be placed under the body with more zest.

**Canter:** In canter the horses move with more than satisfactory length of stride. They have good canter skills.

**Riding horse aptitude:**

Because of this tension and their somewhat 'edgy' character the horses sometimes struggle with the contact. They also need to develop more activity in the hind leg. In under-saddle work they remain too tight in the top line.

**Show driving aptitude:**

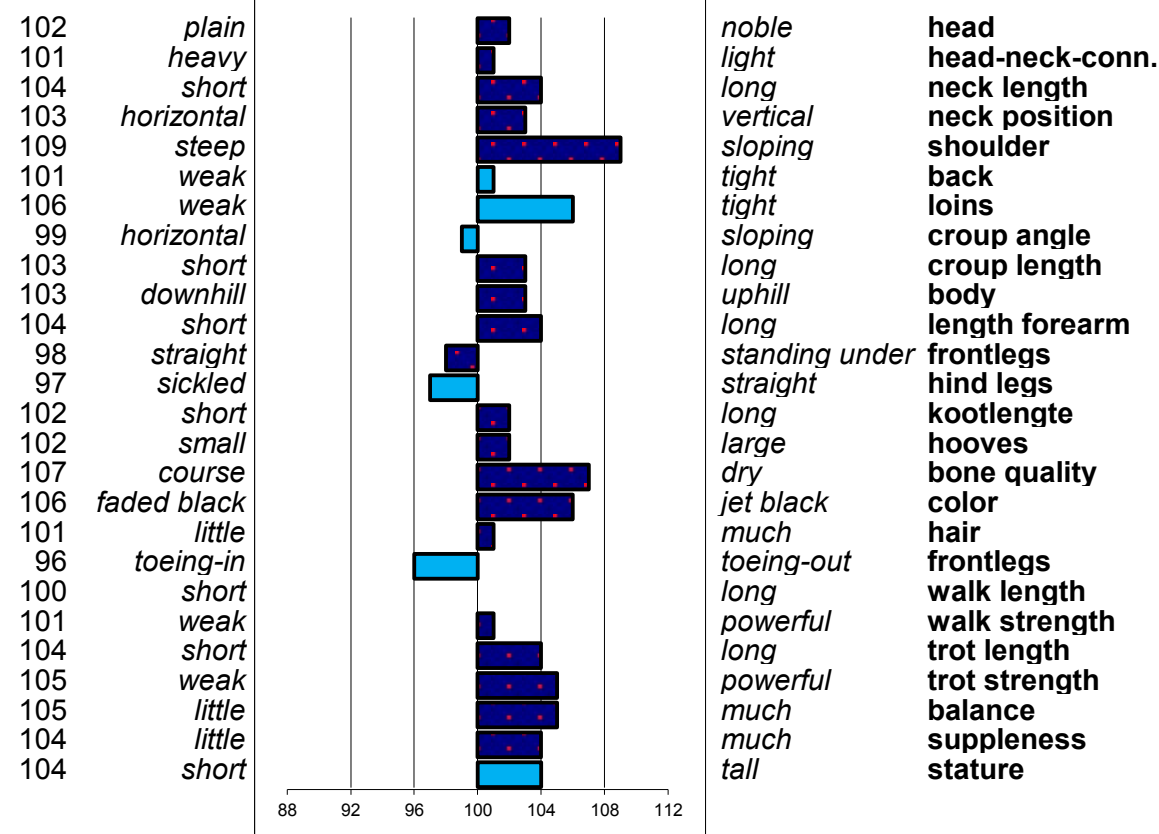

For show driving work the horses lack carrying capacity in the hind leg and therefore generally have little aptitude for this discipline.

**Conclusion:**

Bikkel 470 has a lightly positive breeding value for exterior as well as sport aptitude. On the basis of his overall progenitive image Bikkel 470's breeding license will be sustained.

# Aarnold 471

**Date of birth:** 25 March 2008  
**Breeder:** B. Hofstee, Gorredijk  
**Owner:** B. Hofstee, Gorredijk and Gebr. van Manen, Ede  
**Lineage:** Wikke 404 x Star Jakob 302 x Star Pref\*6 Nammen 308 x Star Pref\*4 Mark 232 (line 135)  
**Kinship:** 16,8%

**General:**

Aarnold 471 was approved in the autumn of 2012 at the age of four on the basis of his good-quality lineage, his relatively low kinship, his good exterior and good results in the Central Examination. From his first stud season 68 foals were registered with 94% out of (minimum) Star mares. Aarnold 471 completed the Progeny Test in 2017 based on one crop of 3-year-old descendants.

**Exterior:**

The Aarnold 471 offspring are a group of fairly uniform horses. They are well-developed, somewhat coarse-looking horses and are found to be slightly lacking in breed expression. The offspring generally have a correct build but get a remark regarding croup conformation. In movement the horses have more than satisfactory ground-coverage but the hind leg should be placed under the body with more determination and a fraction more zest. Further details regarding exterior are described under breeding values exterior.

**Training report and character:**

The Aarnold 471 offspring are pleasing horses with good stable manners. In work they prove to be horses that are easy to train without being noticeably sensitive. They have an eager attitude to work.

**Walk:** Almost without exception the walk is roomy. Many of them would benefit from a more active hind leg.

**Trot:** The horses have an easy and roomy trot but the hind leg must come through with more zest.

**Canter:** They generally all have a roomy canter, but the majority lack rising in the front in this pace.

**Riding horse aptitude:**

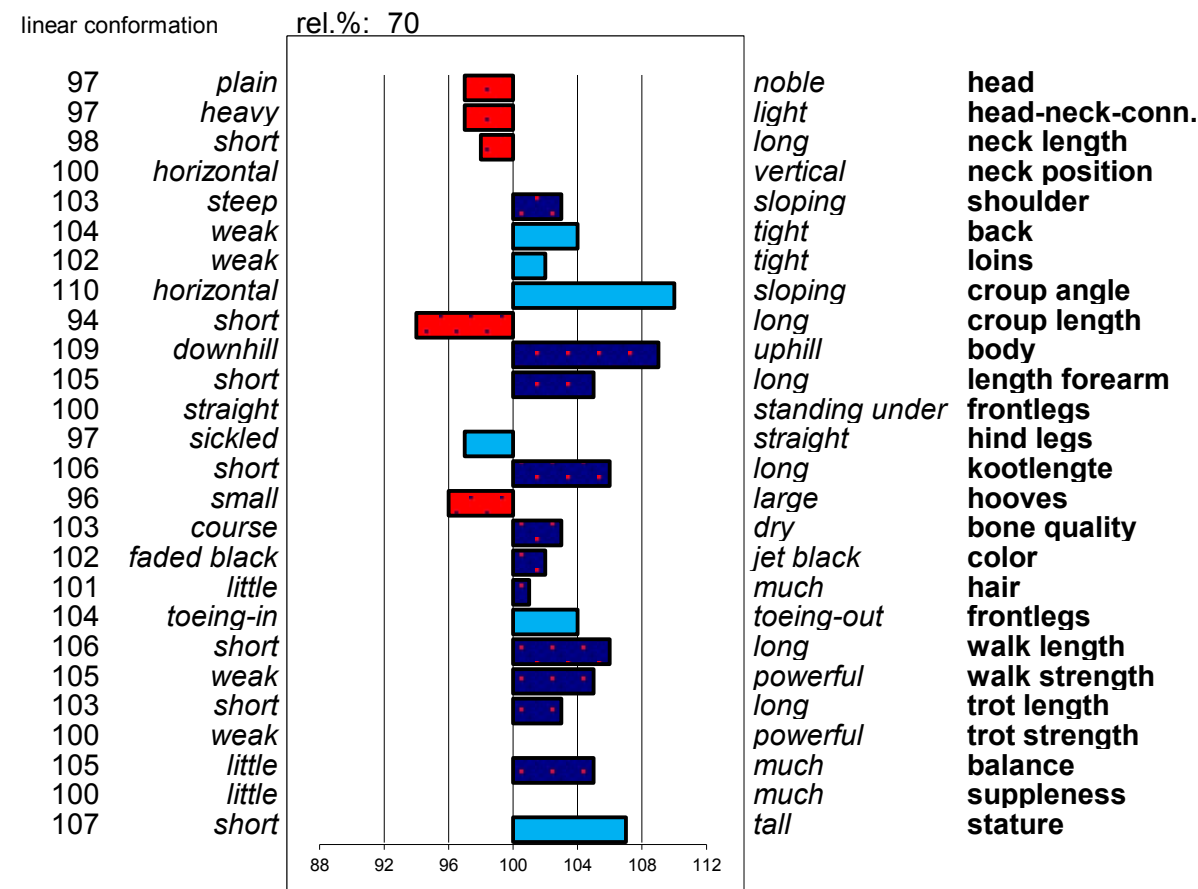

Under saddle the horses move with great ease and scope. They must develop a more uphill outline in movement. They display more than satisfactory suppleness.

**Show driving aptitude:**

When working in-harness the horses must develop more posture. Contrary to their attitude in under-saddle work, they need to develop more forward-going activity in the driving disciplines.

**Conclusion:**

Aarnold 471 has a positive breeding value for exterior as well as sport aptitude. On the basis of his overall progenitive image Aarnold 471's breeding license will be temporarily sustained. As soon as the number of 40 offspring have been inspected the stallion will be re-inspected.

**Report Progeny Test**  
December 2017

# Bartele 472

**Date of birth:** 1 April 2008  
**Breeder:** J.G.M. Drost, Heeswijk Dinther  
**Owner:** De Nieuwe Heuvel, Lunteren  
**Lineage:** Onne 376 x Star Tsjerk 328 x Star Pref Prest\*6 Anton 343 x Star Pref\*5 Jurjen 303 (line 50)  
**Kinship:** 18,4%

**General:**

Bartele 472 was approved in the autumn of 2012 at the age of four on the basis of his very high-quality lineage, his good exterior and good results in the Central Examination. From his first stud season 132 foals were registered with 95% out of (minimum) Star mares. Bartele 472 completed the Progeny Test in 2017 based on one crop of 3-year-old descendants.

**Exterior:**

In terms of exterior the Bartele 472 offspring are a very uniform group of horses with fine breed expression, correct conformation and good legwork. For in-hand movement we see a lot of variation, from horses with little activity in the hind leg to offspring with great movement technique. Bartele 472 presents a favourable picture both for breeding value exterior as well as for Star percentage. Noteworthy fact is that a relatively large number of excellent offspring came from his first crop. This is reflected in the number of first premium mares, the fact that at this stage he

already has four offspring with the Crown predicate and one approved son from this first crop.

Further details regarding exterior are described under breeding values exterior.

**Training report and character:**

The Bartele 472 offspring are pleasing horses with good stable manners. In the work they are fairly sensitive horses with great work ethics. They respond well to the aids and are therefore easy to train.

**Walk:** In most, the walk has more than satisfactory ground-coverage and is regular but needs more activity from the hind leg.

**Trot:** Again, the trot presents a varying collection of individuals with an active and carrying hind leg and others showing little activity from behind which is why they struggle with self-carriage.

**Canter:** In canter they move with strides that have more than satisfactory forward reach and activity. In canter the movement is generally balanced and with a more than satisfactory uphill outline.

**Riding horse aptitude:**

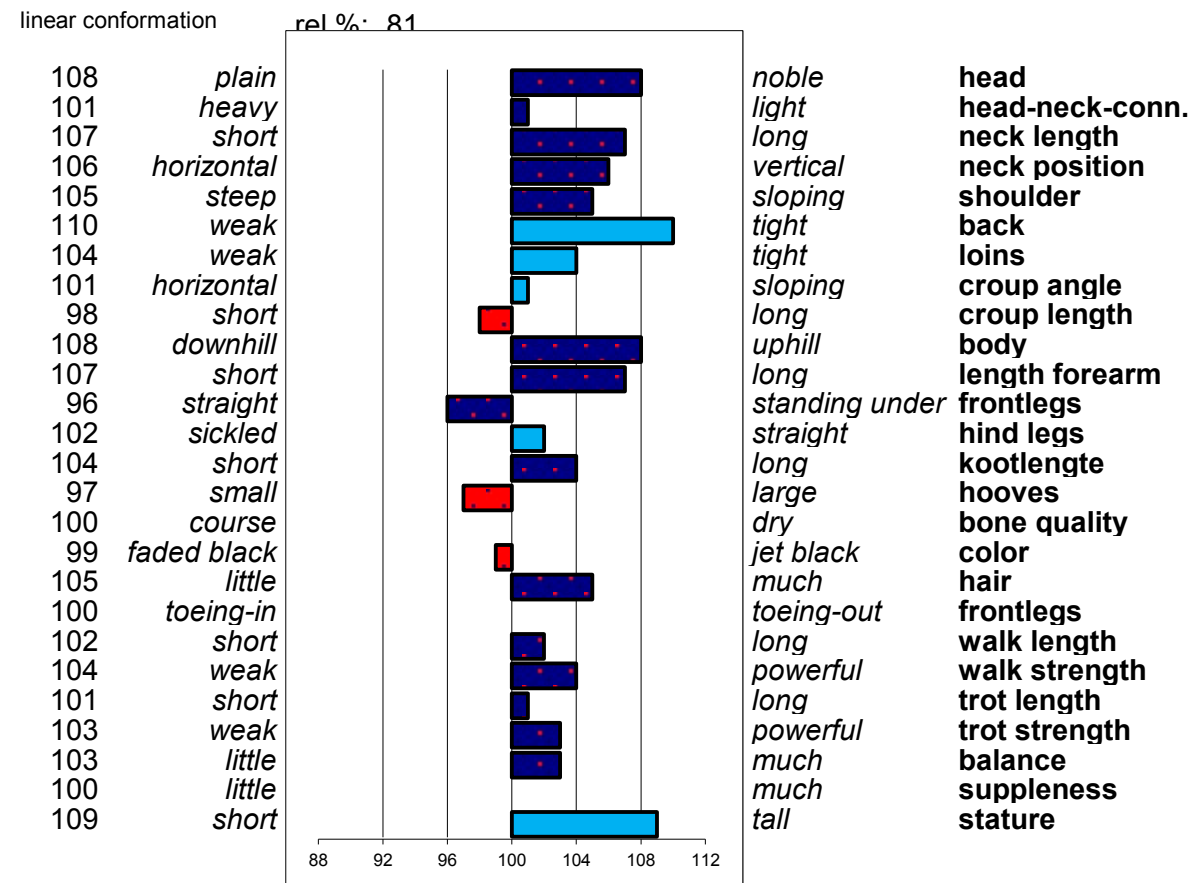

Under saddle the horses present a more than satisfactory image but part of the offspring must develop more activity from the hind leg. In ridden work the horses generally move with good use of the body.

**Show driving aptitude:**

Most horses present a fine front. Carrying capacity of the hind leg needs to improve and the foreleg must develop more forward reach. In contrast to working under saddle, the horses should show more use of the back in driven work.

**Conclusion:**

Bartele 472 has a positive breeding value for exterior as well as sport aptitude. On the basis of his overall progenitive image Bartele 472's breeding license will be sustained.
